We have made adaptations to our operations in order to promote the health and safety of our travelers so you can *Travel with Confidence.*

TRAVEL WITH CONFIDENCE

As our country moves into a new routine due to COVID-19, responding effectively is a shared responsibility. We have adapted our tour operations in order to promote the health and safety of our travelers & we will continually update our procedures based on the advice of government & health officials.

Some of the recent adaptations we have made include:

- Traveling with smaller groups to allow for empty seats on the motorcoach giving travelers more personal space
- Implementing a Well Traveler self screening questionnaire prior to tour departures, asking all travelers & staff to monitor their health during the tour, and implementing protocols should a traveler become ill
- Increasing sanitation protocols to include detailed daily motorcoach cleaning & cleaning high-touch areas often throughout the travel day, providing hand-sanitizer prior to each boarding and throughout the coach, suspending seat rotation policies for the near term, and only working with hotel and restaurant partners that share our commitment to a high standard of sanitation protocols
- Face coverings will be necessary for the near term. Travelers need to bring their own to insure proper fit and comfort, Daniel's Discovery Tours will also have a supply on each tour for travelers to have. Tour Managers and Coach Drivers will wear face coverings in public spaces. Mask requirements are now common in many states and venues.

Making the decision to travel is a personal one. Travelers have a responsibility to help protect their health as well as the health of others. We recommend travelers consult with their physician and refer to CDC Guidelines regarding travel. Adopting good health practices, recognizing the symptoms of illness and staying home when sick are part of the shared responsibility. By working together, we can responsibly get America traveling again.
