

TRAVEL WITH CONFIDENCE WITH

Guided Motorcoach Tours Across America

***THOSE FULLY VACCINATED CAN NOW SAFELY TRAVEL IN THE U.S.
according to the CDC***

We have adapted our tour operations to promote the health and safety of our travelers throughout the Coronavirus Pandemic. We continually update our procedures based on the advice of government & health officials so you can Travel with Confidence.

SOME OF THE ADAPTATIONS WE HAVE MADE INCLUDE:

- **FOLLOWING FEDERAL & STATE GUIDELINES:** As our country makes progress against the Coronavirus Pandemic, Federal and State guidelines regarding mask wearing, vaccine requirements, and quarantine requirements are rapidly changing. We continue to monitor and adapt our tour operations to assure compliance with the guidelines in place at the time and at the place of a tour.
- **PROMOTING HEALTH SCREENING:** We have implemented a "Well Traveler" self-screening procedure asking all travelers & staff to monitor their health during a tour, and we have protocols in place should a traveler become ill while on a tour.
- **ENHANCED SANITATION:** We have increased sanitation protocols to include detailed daily motorcoach cleaning & cleaning high-touch areas often throughout the travel day, providing hand-sanitizer prior to each coach boarding, and only working with hotel and restaurant partners that share our commitment to a high standard of sanitation protocols.

Making the decision to travel is a personal one. Travelers have a responsibility to help protect their health as well as the health of others. We recommend travelers consult with their physician and refer to CDC Guidelines regarding travel. Adopting good health practices, recognizing the symptoms of illness and staying home when sick is part of the shared responsibility. By working together, we can Travel with Confidence.
