

TRAVEL WITH CONFIDENCE WITH

Guided Motorcoach Tours Across America

Our goal is to promote the health and safety of our travelers while touring. We continually update our tour procedures based on the current guidelines put in place by government & health officials so you can Travel with Confidence.

Some of the important measures we have in place include:

- **FOLLOWING THE GUIDELINES:** Due to Covid-19, the CDC (Centers for Disease Control) has issued an Order that requires face masks be worn by all travelers while on public transportation, this includes buses. Guidelines and mandates regarding masks, testing, quarantine and Covid-19 vaccines are rapidly changing and vary based on the states and municipalities we may visit on a tour; by the transportation providers we may use on a tour, such as airlines and cruise lines; and by the public and private venues and attractions we may visit on a tour.
- **PROMOTING HEALTH SCREENING:** Our “Well Traveler” self-screening procedure asks all travelers & staff to monitor their health, and we have protocols in place should a traveler become ill while on a tour.
- **SANITATION PROTOCOLS:** Our sanitation protocols include detailed daily motorcoach cleaning, cleaning high-touch areas often throughout the travel day, providing hand-sanitizer upon coach boarding, and working with hotel partners that share our commitment to a high standard of sanitation protocols.

Travelers have a responsibility to help protect their health, as well as the health of others when traveling. We recommend travelers consult with their physician and refer to CDC (Centers for Disease Control) guidelines regarding travel in order to make an informed decision about travel. Adopting good health practices, recognizing the symptoms of illness and staying home when sick is part of the shared responsibility.

By working together, we can Travel with Confidence.
